

**VETERANS PARADIGM SERVICES, INC.**  
GOVERNMENT CONTRACTING & PROCUREMENT SUPPORT

# Veteran-Owned Government Contracting & Procurement Solutions

Supporting federal, state, and commercial operations through strategic sourcing, logistics coordination, procurement support, and project execution.

## A flexible partner for broad operational requirements

Built to stay broad, professional, and credible across industries without locking the company into one product category.

### 01 Strategic Sourcing

Coordinate supplier outreach, pricing requests, and procurement support around each requirement.

### 02 Operational Support

Support everyday organizational needs, project-based requests, and multi-sector operations.

### 03 Prime & Sub Support

Present a professional profile for direct awards, team partnerships, and subcontract opportunities.

## Core capabilities

- Procurement & Strategic Sourcing** Requirement intake, quote coordination, supplier alignment, and acquisition support.
- IT & Technology Solutions** Broad technology-related sourcing and operational support for modern organizations.
- Facilities & Operational Support** General facility, workplace, and operational support needs across varied environments.
- Medical & Administrative Support** Non-limiting support language for healthcare-adjacent and administrative requirements.
- Logistics & Distribution** Coordination support for movement, fulfillment communication, and distribution planning.

### Veteran-Owned. Client-Focused. Mission-Ready.

A clean, broad-spectrum federal contractor identity built for flexibility and customer confidence.

# Multi-Sector Procurement & Operational Support

A customer-facing overview for government, institutional, and commercial requirements.

## Industries served

 <b>Government Agencies</b>	 <b>Defense Support Operations</b>	 <b>Healthcare Environments</b>
 <b>Educational Institutions</b>	 <b>Commercial Organizations</b>	 <b>Infrastructure &amp; Facilities Projects</b>

## How Veterans Paradigm supports a requirement

- 1 Clarify the Need**  
Understand scope, timing, product/service category, compliance needs, and delivery expectations.
- 2 Source & Coordinate**  
Engage appropriate supply channels and support pricing, availability, and requirement alignment.
- 3 Prepare Response**  
Provide organized quote information, documentation support, and clear next steps.
- 4 Support Execution**  
Coordinate fulfillment communication, project follow-through, and customer updates.
